FALKE Men's Legwear Autumn/Winter 2023/24

Beyond Origins

The FALKE Autumn/Winter 23/24 collection reflects the cold seasons with pleasantly warm materials, quality as well as a reflection of the brand's origins. The capsules of the collection follow the concept of originality as well as different colour worlds and patterns. New styles and designs are complemented by FALKE classics in seasonal trend colours.

Natural Origins

The sporty **FALKE Paddle** sock made from a skin-flattering, sustainable organic cotton captivates with its tennis sock look with two-tone stripes at the cuff.

A must-have for the winter season is the **FALKE Inverness** sock with its modern interpretation of a Norwegian pattern. Wintery colour combinations and soft, warming cashmere yarn complete the style.

Beyond Imagination

Inspired by the intense shade of purple, FALKE presents the popular bestseller **FALKE Airport** in different shades of violet. Pleasantly soft cotton on the inside and climate-regulating merino wool on the outside of the sock ensure exceptional wearing comfort.

Stripe-up-your-life

The multicoloured striped design with a special yarn effect in the base makes the **FALKE Tinted Stripe** sock a real eye-catcher in everyday life. The material composition of wool and finest cotton in combination with the perfect FALKE fit guarantee a comfortable wearing feeling.

Bootsocks

The fashionable **FALKE Carved Pile** sock offers a special mouliné effect and a raised knitted structure. The style is complemented by the use of skin-flattering cotton for an elegant design. The harmonious and wintry colourways can be combined in a variety of ways.
